ABOUT US

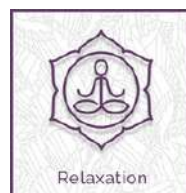

Namastea is on a mission to promote a modern vision of tea and a healthier lifestyle.

Because the modern world can sometimes have serious negative effects on our health (stress, pollution, fattening food,...), we need to look for healthy solutions.

With its selection of natural teas from Sri Lanka, Namastea provides you all the benefits of a premium tea and some targeted solutions to your every-day challenges.

DISCOVER OUR 3 CATEGORIES

SRI LANKAN TEA

SYMBOL OF QUALITY

All our green and black teas come from the paradise island of Sri Lanka, previously known as Ceylon.

Sri Lanka is known for its distinct flavour which is shaped by its unique terroir, and orthodox production methods.

The tea is exclusively handpicked and manufactured using traditional artisan methods, combined with new packaging techniques to deliver a fresh product to the consumer.

The lion logo ensures a 100% pure Ceylon tea origin.

Sri Lanka is also the only country in the world using a tea auction system, screening each tea production ; guarantee of quality and consistency.

SUSTAINABILITY

OUR PRACTICES AND COMMITMENT

We aim to do business in the most sustainable way we can. We know this is an ongoing quest but we have already achieved few milestones.

We are proud to have fully removed plastic from all our tea packaging. All our teas are now packed, protected and shipped without the use of plastic. We use cardboard and biodegradable paper for our tea bags and aluminum pouches for our loose teas.

We also source our teas solely from Sri Lanka, which is the only country in the world to have received the distinction of "ozone friendly tea", thanks to its sustainable practices.

Finally, we have chosen Sri Lanka because it is only one sailing day away from the Gulf. Our teas have not traveled thousands of kilometers before reaching your cup.

Preserving tea while ensuring the most hygienic packaging without the use of plastic is not an easy task. But we're up for the challenge!

OUR TEA BAGS

When quality meets practicality

Our range of tea bags is made of premium tea from Sri Lanka packed in a biodegradable single chamber tea bag. The colorful paper envelop preserves the quality and flavor of the tea.

“Tea bags are the most common format of tea today. They allow individual serving and practical storage.”

OUR SELECTION

Good Morning
English breakfast

Mister Grey
Earl grey

Sweet Dreams
Chamomile & honey

Go Green
Green tea mint

Lime Punch

OUR LOOSE TEAS

The ultimate premium tea experience

Our loose teas are made of the finest Ceylon teas combined with natural spices, flowers and fruits. Packed only in a recyclable aluminum pouch, they provide the finest tea experience.

“Loose tea allows the water to flow through the leaves and extract a wide range of vitamins, minerals, flavors, and aromas from the leaves.”

O U R T E A W A R E

Elevate your customers' tea experience to an elegant ceremony

We supply a modern and sustainable range of accessories that will allow you to provide a unique experience to your customers. Today sensorial exploration is key and tea is not the exception.

We can rely on a long eastern tradition to design an unforgettable journey and create true enchantment.

“

Ritual tea drinking, which originated in China, was first practiced in Japan during the Kamakura period (1192–1333) by Zen monks, who drank tea to keep awake during long sessions of meditation.

We promote clean and minimalist designs, using natural materials like wood and glass to sublime and respect our different blends.

All the materials we use are fully biodegradable or recyclable.

Tea Cups & Mugs

Glass cups: available in 200 and 350ml
Glass mug: 300ml
