SRI LANKAN TEA

SYMBOL OF QUALITY

All our green and black teas come from the paradise island of Sri Lanka, previously known as Ceylon.

Sri Lanka is known for its distinct flavour which is shaped by its unique terroir, and orthodox production methods.

The tea is exclusively handpicked and manufactured using traditional artisan methods, combined with new packaging techniques to deliver a fresh product to the consumer.

The lion logo ensures a 100% pure Ceylon tea origin.

Sri Lanka is also the only country in the world using a tea auction system, screening each tea production ; guarantee of quality and consistency.

SUSTAINABILITY

OUR PRACTICES AND COMMITMENT

We aim to do business in the most sustainable way we can. We know this is an ongoing quest but we have already achieved few milestones.

We are proud to have fully removed plastic from all our tea packaging. All our teas are now packed, protected and shipped without the use of plastic. We use cardboard and biodegradable paper for our tea bags and aluminum pouches for our loose teas.

We also source our green and black teas solely from Sri Lanka, which is the only country in the world to have received the distinction of "ozone friendly tea", thanks to its sustainable practices.

Finally, we have chosen Sri Lanka because it is only one sailing day away from the Gulf. Our teas have not traveled thousands of kilometers before reaching your cup.

Preserving tea while ensuring the most hygienic packaging without the use of plastic is not an easy task. But we're up for the challenge!
